My Celebrity PLN

If you surround yourself with passionate educators, you become more passionate

Who do you go to when you need advice  
professionally?

Isolation is now a choice educators make

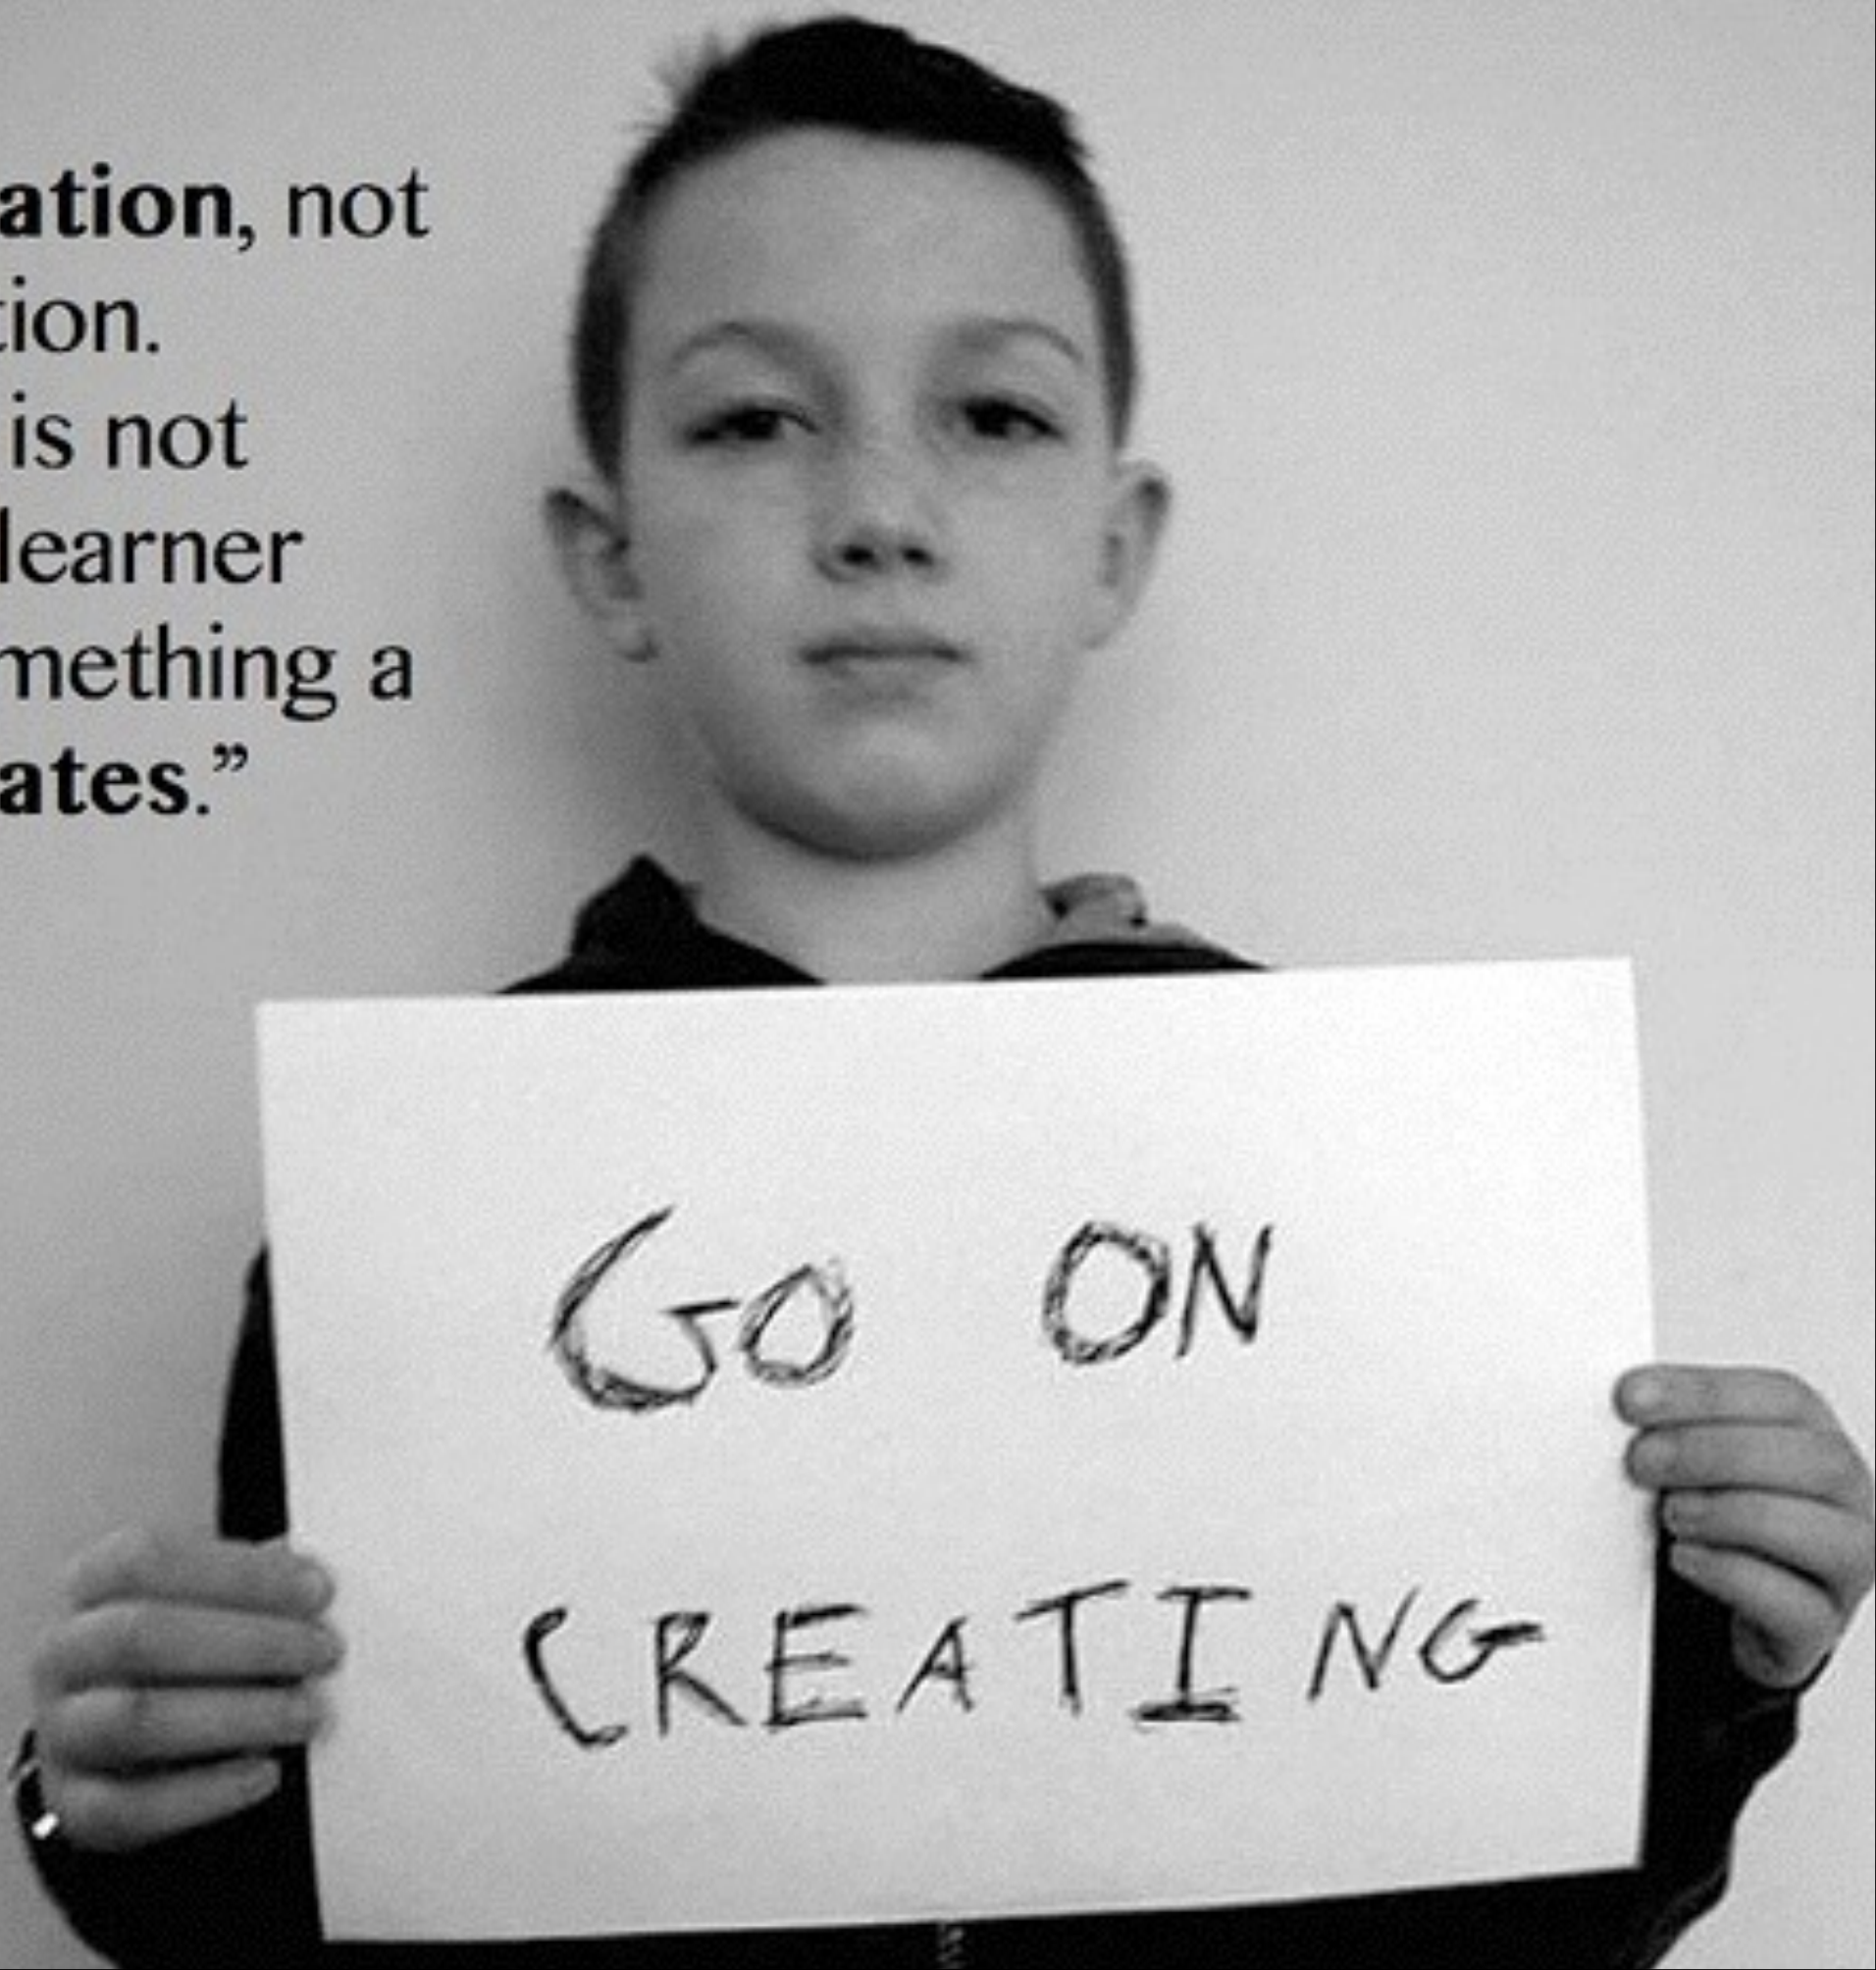

“The longer we keep up the facade that school is the primary place of learning, the sooner it becomes irrelevant.”

“Learning is **creation**, not  
consumption.

Knowledge is not  
something a learner  
absorbs, but something a  
**learner creates.”**

Learning and sharing are intertwined

To innovate, disrupt *your* routine

For innovation it is not enough to be  
different, we have to be better

“Chance favors the connected mind.”

Couldn't have been one bird, @adtothebone.  
Sounds more like 4.5 million. (Seriously, we  
did the math.) [pic.twitter.com/aLYScFR3](http://pic.twitter.com/aLYScFR3)

# weight of bird crap required to damage smart's tridion safety cell<sup>†</sup>

one bird (  ,  ,  ) = 10,000 craps

**4,500,000** pigeon craps

**360,000** turkey craps

**45,000** emu craps

\* smart's tridion safety cell can withstand up to 9,000 lbs. of pressure.

† Figures are estimated and may not be exact. But they're not totally full of crap, either.
